Discharge Details (1 of 1)

SSO Discharge from SPS 1B located at 1754 East Lake Mitchell Drive

Discharge Type:

SSO Discharge

SSO Discharge

The reported discharge is from a private or municipal separate sewer collection system (not a wastewater treatment plant) during wet or dry weather, or a dry weather discharge from a municipal combined sewer collection system.

Is the outfall or discharge area located at a private residential address?

NO

Outfall or Discharge Area Name

SPS 1B located at 1754 East Lake Mitchell Drive

Outfall or Discharge Area Description

SPS cement pad and adjacent grassland and swamp directly east of the station

Outfall or Discharge Area Location

44.2592838,-85.4688096

Has the discharge ended?

YES

Volume Discharged	Unit	Was the volume estimated?
2500	Gallons	Yes

Quality of Discharge

Raw Sewage

Please describe the discharge, including the reason for Discharge

At approximately 7:40p.m., lift station 1B, that is located on East Lake Mitchell Drive experienced a sewer overflow. This was due to the surge of sewer flow after the power was restored to the upstream grinder and lift pump stations. The lift station intermittently discharged until 8:25p.m. There was potential impact to the wetlands located directly east of the station.

Was the land or surface water impacted by the discharge?

Both land and water impacted

Name of Surface Water(s) Impacted:
Wetlands directly east of the lift station

Name/description of the land impacted:

Lift station cement pad, adjacent ground, side of the road, and wetlands (swamp) directly east of the station
